

Define Beauty

TO LOOK GOOD NATURALLY
WITHOUT RELYING ON MAKE-UP. FIND
OUT HOW WITH NATURAL DEFINE

Many women feel uncomfortable without their make-up and wish they had the natural beauty and self confidence to look good as soon as they wake up. It would be great to save time each morning, and not have to worry about getting your eye liner on without any smudges, or a wobbly uneven line around the mouth before you face the day.

For those who have thin lips that have lost their definition, semi permanent make-up is a cost effective solution to surgery or lip filler injections. Hair loss in the eyebrows caused by over plucking or ill health can also be disguised, and the shape of brows may be enhanced with these treatments.

At Natural Define, a range of colours are available and your therapist will help to select the best one for your skin tone. A liner pencil is used to draw the new outline of the lips, eyebrows or eye liner, to ensure that you are happy with the anticipated outcome. Prior to treatment, an anesthetic cream is applied to numb the area, and then the chosen colour is applied with a technique similar to tattooing.

After the initial treatment, the colour may appear stronger during the first few days, until it fades to a natural looking shade. Results can last for up to three years, depending on the type of skin and amount of pigment applied.

An unevenly shaped mouth or hair loss in the eyebrows can be corrected by creating a newly defined shape, this can create fuller lips. You

PERFECT SMILES :
Imagine looking this good without
having to spend a fortune on make-up.

can now enjoy the freedom of not having to spend time and money applying make up every day, and enhance your natural looks without the need for cosmetic surgery.

Semi permanent make-up is just as it sounds, it is not permanent and can be removed. This means that it must be reapplied every so often to maintain the desired look. This can be great for someone who wants to try permanent makeup but is not ready to do so.

Natural Define have a team of experts with many years of experience within the field of semi permanent makeup.

Perfection is paramount and their workmanship unequalled and for this reason Natural Defines practitioners are at the forefront of Micro pigmentation in offering the most advanced treatments available.

Before you consider this option, it is advisable to have a consultation in which you have the opportunity to explain your expectations. Your

specialist will present what products she will be working with, what the process involves and will apply makeup to demonstrate the final look.

With permanent make-up, you have the process done once and your face looks the same, done up and beautiful, as if you used up hours in the mirror. It's a fact you can keep since nobody will notice that it's makeup that is permanent. They'll just assume you took your time to do it right.

WITH SEMI PERMANENT MAKEUP YOU CAN HAVE

- Perfect eyebrows which can be as dramatic as you like or very subtle with a hair stimulation effect.
- Have sparkling eyes with top or bottom eyeliner.
- Luscious full lips with lip liner or full lip tint.

DOES IT HURT?

The whole procedure is virtually pain free as topical anesthetic is applied prior to treatment to completely numb the skin. Therefore you should not feel any discomfort during the treatment. The whole procedure lasts one hour after which the numbing disperses and you'll be ready to look and feel a million dollars.
